

## NO. 400 SPECIAL HEAVY-DUTY TRANSMISSION OIL SAE 50

### DESCRIPTION

P. S. Special Heavy-Duty Transmission Oil is a **SAE 50** oil in viscosity. This oil is blended with a unique heavy-duty engine oil additive package that has been modified to meet the requirements for **MT-1** (manual transmissions) with a **GL-1** additive level.

This **special** transmission oil is thermally stable and will not varnish at elevated temperatures. This oil also contains rust and oxidation inhibitors and contains a heavy-duty anti-wear/friction modifier to keep wear to a minimum.

This oil should not be construed as an **E. P.** oil and should not be used in applications where an **E. P.** oil is required such as in wheel bearings, power dividers and differentials where a GL-4/GL-5 is required.

### CONTAINER SIZES

5 Gallon Pail  
16 Gallon Keg  
55 Gallon Drums

### TYPICAL SPECIFICATIONS

SAE GRADE	50
Gravity, °API	28
Vis., SUS @ 100°F.	900
Vis., SUS @ 210°F.	85
Viscosity Index, min.	95
Color	Red
Flash Point, °F.	515
Pour Point, °F.	- 5

### USER BENEFITS

- ★ High temperature stability
- ★ Rust and oxidation stability
- ★ Anti-wear/friction modifier
- ★ Exceptionally long life oil
- ★ Longer oil drains
- ★ Longer seal life
- ★ Extended parts life
