NO. 1601 FLEX-TREAT ANTI-GEL CONCENTRATE W/ DE-ICER

- **FLEX-TREAT ANTI-GEL** is a highly concentrated cold flow improver that will lower cold weather operability substantially. **FLEX-TREAT ANTI-GEL** breaks the wax crystals that form into much smaller particles which vastly improves filterability for winter operation.
- **FLEX-TREAT ANTI-GEL** also contains lubricity/anti-wear agents to replace the sulfur that is removed during the refining process to hold pump wear to a minimum.
- **FLEX-TREAT ANTI-GEL** is formulated for today's ULTRA LOW fuels as well as BIO blended fuels.
- **FLEX-TREAT ANTI-GEL** when used as recommended will lower operability 10-20°F below the cloud point of the fuel and as a highly concentrated formulation affords a very low treatment cost.

USER BENIFITS

- LOWERS OPERABILITY 10-20°F
- COMPAPABLE TO 70/30 BLEND
- MORE POWER/ BETTER FUEL MILAGE THAN 70/30 BLEND
- CONTAINS LUBRICITY ADDITIVE TO PREVENT PUMP WEAR
- VERY LOW TREATMENT COST
- DE-ICER LOWERS FUEL LINE FREEZING POINT

MIXTURE RATIO

1-4000	1-3000	1-2000
TEMPS ABOVE + 5° F.	TEMPS ABOVE 0° F.	TEMPS BELOW 0° F.

CONTAINER SIZES

275 Gal. TOTES	55 Gal. DRUMS	2-2.5 Gal. CASES
----------------	---------------	------------------
